Oil-only Series

- Fast-Wicking / Loose stacked-weave design increases surface area on spill. Mat starts wicking on contact to save time in critical situations. Works equally well on land or water - it even floats when fully saturated.
- Absorbs Oily Liquids - Repels Water/Melt Blown polypropylene fibers are left in their natural hydrophobic state. These hydrophobic fibers repel water (and float) while only absorbing oils and other hydrocarbons.
- High Absorbency Keeps Mat on the Job Longer/Large-diameter. Melt Blown polypropylene fibers are randomly assembled to create a lofty Mat - allowing it to absorb the most of any mat!
- Bright White Color Makes it Easy to See When Mat is Completely Saturated
- Dimpled pattern speeds wicking to quickly soak up oil. Retain its shape even completely saturated.
